

SHREE KUMAR M

JAVA FULL STACK DEVELOPER

Chennai | +91-9566720900 | shree181203@gmail.com | <https://www.linkedin.com/in/shree-kumar-m/> | github.com/Shreekumar-Git

Professional Summary

Java Full Stack Developer skilled in Java, Spring Boot, Hibernate, RESTful APIs, and PostgreSQL. Experienced in developing, testing, and cloud deploying full-stack web applications using MVC, Microservice architecture with a focus on performance, scalability, and clean code practices

Technical Skills

Front-End : HTML5 , CSS3 , Bootstrap , JavaScript

Back-End : Java8 , Spring Boot (Spring Web, Spring Data JPA , Spring Security)

Database : MySQL , PostgreSQL , MongoDB

Tools & OS: Postman, Swagger(Open API), Unit Testing (JUnit, Mockito), LinuxOS , Docker

Version Control : Git , GitHub

Build Tools & Architecture: MVC, Microservices, Maven, Gradle

Others: REST APIs, Render, Gen AI, IDE's (VS code, Antigravity, IntelliJ Idea, Eclipse)

Education

Aug 2021 – May 2025

Bachelor of Engineering in Electrical and Electronics (EEE)

Arunai Engineering College, 2025 – 7.4 CGPA

Projects

1. E-Commerce Web Application

HTML | CSS | Thymeleaf | Java | Spring Boot | Postman (API Testing) | PostgreSQL

- Built a secure Spring Boot authentication system using JWT and RBAC, ensuring isolated user workflows, with ChatGPT assisting in debugging and optimizing backend logic
- Implemented backend APIs using Spring Boot and connected to MySQL database.
- Containerized and deployed the application using Docker on Render, ensuring smooth performance, scalable architecture, and production-ready hosting.

2. Movie Ticket Booking System

HTML | Tailwind CSS | Java | Spring Boot | Swagger (API Testing) | PostgreSQL

- Integrated Java Mail and developed a robust backend with Hibernate JPA(ORM) + PostgreSQL, supported by JUnit & Mockito unit testing for improved reliability and code quality.
- Leveraged GitHub Copilot and AI-assisted development workflows to streamline coding, improve API integration accuracy, and enhance frontend and backend productivity throughout the project lifecycle.

Certifications

JAVA Full Stack Developer – GUVI

July 2025 – Sep 2025

- Hands-on experience with Java, Spring Boot, MySQL, and REST APIs.
- Built end-to-end applications as part of capstone projects.
- Learned Git version control, CI/CD basics, and Agile workflow.
